

# HOSE BIBB LOCK

Instant Security for your Water

Designed to prevent water theft and vandalism to outdoor faucets and hose spigots.

Screws securely onto the end of any standard 3/4" garden hose bibb, yard hydrant, or vacuum breaker. The cover is placed over the fitting assembly and locked with any commercial padlock.

Even if the bibb is fully opened, water will not flow unless you remove the hose bibb lock.

## Padlock NOT included

### Features:

- Install and remove in seconds
- No tools required
- The fitting cannot be removed and will not leak when the hose bibb is locked
- Chrome finish with a brass fitting
- Stops leaky hose bibb
